G.4 Delivery Orders

G.4.1 Delivery Orders Issued Under Multiple-Award Contracts

All multiple awardees will be provided a fair opportunity to be considered for each order in excess of \$2,500 pursuant to FAR 16.505(b). The Contracting Officer may use information available on hand to ensure that each awardee is provided a fair opportunity to be considered.

Requests for offers may be forwarded via hard copy, facsimile, electronic commerce methods, or telephone. Requests for offers and the required responses will be tailored to the minimum level of detail necessary for adequate evaluation and selection for order placement. Upon receipt of a request for offer, the contractor shall submit an offer to the Contracting Officer within the time frame specified in the request. Issuance of an order may be based on evaluation of initial offers without discussions, or on evaluation of offers and discussions. Each order will be placed with the contractor that provides the best overall value to the Government.

Orders will be placed against this contract via Electronic Data Interchange (EDI), facsimile, or hard copy. The Contractor will be required to deliver products and provide services as specified in each individual Specification/Statement of Work that will be attached to the orders. Orders will be issued on a firm fixed price basis. Each order will also contain agreed-to delivery and acceptance terms and conditions. Contractor performance will be reviewed during annual reviews and will affect the issuance of future orders under these multiple award contracts.

The Government has the right with any delivery order to require the contractors to submit an executive summary, technical proposal, and cost proposal, or any combination of the three.

Alternatively, or in addition, contractors may be given the opportunity to propose on a given delivery order by any of the following mechanisms:

- 1) The Contracting Officer may telephone contractors to identify contractor capacity to provide equipment and contractor's proposed fixed price under simple delivery orders requiring delivery of smaller quantities of equipment to a single location.

2) The Contracting Officer may telephone or issue written requests for written or oral offers for delivery orders requiring larger quantities of equipment to a single location or multiple locations.

Any written request for offer will include the following:

- A. The Specification/Statement of Work and the evaluation criteria that will be used to evaluate the offers, if required;
- B. The components of the offer (technical and/or cost or other factors) to be submitted; if required;
- C. Format for submission;
- D. Time frame for submission of the offer;
- E. Basis for selection;
- F. Any other relevant instructions to the contractor, including those regarding discussions.

Costs associated with the submittal of proposals for individual delivery orders shall not be reimbursed as direct charges against the contract.

The Contracting Officer's selection decision on each delivery order shall not be subject to the protest or dispute provisions of the contract, except for a protest that the delivery order increases the scope, performance period, or maximum value of the contract.

NOTE: Although the services described in C.7 are not mandatory, contractors that do not offer the installation services may be precluded from competition on delivery orders that include specific installation requirements.

G.4.2 Delivery Orders for Testing and Evaluation Purposes

Therefore, orders under this provision are not required to comply with Paragraph G.4.1 of this contract, "Delivery Orders Issued Under Multiple-Award Contracts."

Additionally, delivery orders issued under this provision will have attached a "Testing and Evaluation Authorization Form" (Section J - Attachment 8) signed by the COTRs and an IRS Contracting Officer. The Contractor shall not accept delivery orders that do not have the authorization form attached. Orders received without an authorization form shall be forwarded to the COTRs (Susan Levin and Robert Zanger) and the IRS Contracting Officer before accepting and processing the order. Notification shall be provided to the Contracting Officer that signed the order.

The Government is not obligated to place a single, or multiple orders as a result of this provision. Further, the decision to place orders for testing and evaluation purposes, and the contractor(s) with whom orders are placed, rests solely with the Government.

Orders placed under this provision shall not waive the Government's rights pursuant to E.2 "First Article Approval-Contractor Testing (FAR 52.209-3)(SEP 1989)," including the right to require the Contractor to test random samples to verify compliance with operational requirements in the specification as contained in E.3 "Ongoing Product Testing."
